

Interprofil.

Design: Prof. Stefan Heiliger

s:line

The lines concentrate on the cast side part of the chair. The swing of his flow accompanies the seat, the folded in footrest and the stretched position. It still leaves room for the back's free play.

Functions	Continuously variable backrest (headrest adjustable) and an independently adjustable leg rest (shifting your body weight). Both of these elements can only be adjusted by means of a control panel on exterior of the left-hand element while running on battery power.
Options	Armrest sand-cast /polished Armrest chill-cast / polished (additional charge)
Upholstery	Leather Fabric (upholstery of armrests only in leather)
Frame	Seat and back: metal with Welbo spring system Parts of armrest: aluminium
Dimensions in cm	Width 66, Depth 90/174, Height 113, Seat height 46, Seat depth 61/101, Seat width 53
